Exploring Relationship Systems Intelligence

At its core is an evolution of the principles of Emotional Intelligence (relationship with oneself), and Social Intelligence (relationship with other) to Relationship Systems Intelligence, where the focus is on the **collective wisdom and culture** of the group, team or system.

You will be introduced to a cutting edge coaching model based on Systems Theory, Process Work, Family Systems Therapy, Alternative Dispute Resolution, Quantum Physics, Co-Active Coaching™ and Taoism.

Learn five key ORSC™ tools

1. Coaching the Third Entity™

Each group, team or partnership is more than just a collection of individuals. You will learn to see the Third Entity as your client instead of each individual, harnessing the combined experiences and wisdom that form this unique and separate entity.

2. Creating Designed Partnership Alliances (DTAs)

Think of a DTA as the “rules of the road,” that the person, team or organization whom you’re coaching establishes among themselves with your guidance. This builds co-responsibility for the outcomes and determines how the relationship system addresses challenges.

3. Coaching for Alignment

You will learn how to establish boundaries and limitations while focusing on the common interests of your clients.

4. Constellating a System

Through an exercise called Informal Constellations, you will practice constellating a system revealing the roles and positions each team member holds directing future growth.

5. Crafting a Relationship Myth

You will learn how to craft a narrative with your client that resonates deeply and plots a course for change.
